#### TELEGRAMS AND CABLEGRAMS

"To facilitate sending telegrams or cablegrams dial telegraph companies as listed in the alphabetical directory or 497 and ask for Pacific Telegraph.

"Charges for Pacific Telegrams placed by telephone will be billed by the telephone company on its bill for telephone service, or if sent from a public telephone the charge will be collected at the time the message is sent."

### HOW TO TRANSACT BUSINESS WITH THE COMPANY

#### SERVICE APPLICATIONS

The Company requires each applicant to sign an application for service desired on a form provided by the Company before service can be established.

#### MOVING TELEPHONE

Whenever a change in the location of a telephone is desired the Company requires a written request on form provided by the Company.

#### DISCONTINUANCE OF SERVICE

When vacating premises, be sure to advise the Company by written request or on form provided by the Company sufficiently in advance to permit your account being closed promptly. Otherwise the Company holds the subscriber responsible for all charges.

All orders are subject to a delay and should be placed at least two weeks in advance. Verbal orders cannot be received for new orders or changes.

#### **BILLS FOR SERVICE**

Information regarding bills rendered, accounts, payments, etc., may be obtained at the Company's business office or by dialing 42-018.

#### RATES FOR SERVICE

May be obtained at the Company's business office by dialing 42-018.

#### REPAIR SERVICE

The Company appreciates prompt reports of trouble or unsatisfactory service. Such reports should be made promptly by dialing 492, Repair Service, so that they may receive immediate attention.

#### NUMBER CHANGES

Changing telephone instruments and numbers is expensive to the Company and at the same time results in some inconvenience to our customers. For these reasons such changes are avoided wherever possible. To meet the increasing use of telephone service by subscribers, however, and in order to provide for new and additional service, rearrangements in our plant are necessary. Your cooperation when such readjustments affect your service will be appreciated. The Company reserves the right to change numbers as the exigencies of the service demand without notice.

### INSTRUCTIONS FOR USING AUTOMATIC TELEPHONES

Obtain the correct telephone number from the latest directory before attempting to make a call. If it is difficult for you to remember the number, write it down before attempting to dial. If the person or firm is not in the directory, dial "Information" (493).

Never try to remember a telephone number. Most wrong numbers are due to guessing. If you have the least doubt about it, look it up and thus save time and trouble.

#### **HOW TO SPEAK:**

Speak slowly, clearly, in an even tone of voice and directly into the telephone with the lips just clearing the mouthpiece.

#### HOW TO DIAL:

Remove the receiver from the hook, being careful not to "jiggle" the hook in doing so, as it will cause you to get a wrong number.

Always listen for "dial tone" before you start to dial to be sure that the line is not in use. If a conversation is heard, hang up the receiver and wait until you believe the conversation is completed before making another attempt.

To dial any figure, place your finger firmly in the hole in the dial through which the figure is seen. Pull the dial around until your finger strikes the finger stop. THEN REMOVE YOUR FINGER from the hole and let the dial return until it stops in the normal position. Do not touch the dial while it is returning, because any attempt to hasten or retard its motion will interfere with the operation of the equipment and probably result in a wrong number. Each letter or figure must be dialed in its consecutive order to obtain the desired numbers.

Always allow the dial to come to a full stop before dialing the next figure. Too rapid dialing does not permit the apparatus associated with the dial to function completely.

Do not move the dial before removing the receiver or in the act of removing the receiver, as a part of the dialing may be completed before the receiver hook is fully released. A wrong number would result.

Do not move the dial while talking, as it may break the connection.

Do not move the receiver hook up and down after you have established a connection or before you have finished talking, for to do so will break the connection.

IF THE PARTY TO WHOM YOU ARE TALKING IS DISCONNECTED, hang up your receiver for a few seconds and, if you are the calling party, dial the entire number again. If however, you were called by the person to whom you have been talking and disconnection occurs, hang up the receiver and wait to be called.

If party desired is on your line follow instructions on PARTY SUBSCRIBERS RING BACK NUMBER CARD.

IMPORTANT:—If, before you complete dialing, you find that you have made an error, or if your finger slips out of the hole while dialing, hang up the receiver for a few seconds. Then take the receiver off and dial the entire number again.

THE RINGING SIGNAL OR TONE is an intermittent burring sound which you hear at regular intervals and indicates that the called party's telephone is ringing for your call. If you are not answered within a reasonable time, ordinarily 5 to 10 rings, it is a safe conclusion that no one is there to answer the telephone and the receiver should be hung up.

THE BUSY SIGNAL, is an interrupted "Buzz Buzz" sound on the line and indicates the called party's line is busy.

If after several attempts have been made to dial a number and you have not heard the "Ringing" signal, or if you keep getting a busy signal, dial 492, Repair Service, and report to them.

HANG UP THE RECEIVER AFTER YOU HAVE FINISHED TALKING to disconnect your telephone from the telephone you have called.

KEEP THE RECEIVER ON THE HOOK FOR A FEW SECONDS BE-FORE MAKING ANOTHER CALL. If you wish to make a second call after completing the first, it is necessary to hang up the receiver for a few seconds before starting to dial to give the equipment time to break the first connection. Likewise, after receiving an incoming call an attempt to dial a number should not be made for a few seconds after you have hung up the receiver.

WRONG NUMBERS. When you know that a false call is due entirely to your error, why not acknowledge it to the party who answers the call? Why leave the Telephone Company to shoulder the blame?

Advertise you have a telephone, BUT DON'T PUT ITS NUMBER ON YOUR LETTER HEADS, CARDS OR AUTOS. Why? Because this only increases the amount of trying to remember such numbers by the public, also the continued use of obsolete numbers—which in turn only hurts the service and doesn't help your business at all. Think this over.

The use of profane or obscene language over the lines is positively forbidden. The use of the local lines is limited to five minutes. The Company reserves the right to disconnect or remove a telephone without notice for either of the above causes.

#### INTER-CITY CALLS

For all Inter-City calls dial 497 and place call with operator who answers. Determine whether STATION-TO-STATION SERVICE or PERSON-TO-PERSON SERVICE IS DESIRED. To assist you in deciding, these two types of service are explained below:

STATION-TO-STATION SERVICE

A station-to-station call is one on which you talk with ANYONE WHO ANSWERS

at the called telephone.
PERSON-TO-PERSON SERVICE

A person-to-person call is one on which you talk with a PARTICULAR PERSON (or Private Branch Exchange Station) SPECIFIED BY YOU.

#### RATES FOR INTER-CITY SERVICE

(Rates to points not listed below may be obtained from the Toll Operator)

There is no Federal Tax on telephone calls for which the total charge is under 50 cents. The tax is limited to 10 cents if the charge is 50 cents and less than \$1.00; it is limited to 15 cents if the charge is \$1.00 and less than \$2.00; and to 20 cents for \$2.00 or more. Rates for Appointment or Messenger calls may be obtained by calling Long Distance. Station-to-Station rates of 25 cents or less are for an initial period of 5 minutes. Station-to-Person rates are for an initial period of 3 minutes. A REPORT CHARGE is applicable on Person-to-Person calls under certain conditions. Customers will not be notified when the initial period of time has elapsed unless the

been requested in advance to do so

Operator has been requested in advance to do so.

TIME SERVICE—To secure the time of day dial 494.

The dialing of this number operates a set of chimes connected to a master clock. The number of strokes on the low pitch chime indicates the hour, the medium chime the ten-minute intervals and the high pitch chime the unit of minutes. For example: 9:32 you will hear nine low pitch chimes, three medium and two high pitch chimes. 9:03 will be indicated by nine low pitched tones, a buzz and three high pitched tones, the buzz indicating the zero.
